More This is the best book to help you on your journey to awaken your third eye, and develop your skills in clairvoyance. I've been looking for something like this for a long time... this is more than a book and more like a manual. You can get the pdf for free on the internet, but it's so good that I bought it. My most precious possession. Thanks Samuel. This book is the compilation of multiple demonic practices. His entire school of thought is a satanic cult. There are no answers in this book, nor in any of Sagan's books, except for a deeper path to darkness. This book is the compilation of multiple demonic practices. Here, nothing vague! The indications are clear, the techniques precise, the first immediate and tangible results. A fairly detailed and pragmatic guide to spiritual practices found in many traditions, with the emphasis on experiencing things for yourself and not in any particular tradition. If you are looking for something along these lines, this is probably as good of an introduction as you will find. Not very new here – mostly a compilation of Hatha Yoga, Tai Chi, Reiki, etc. I was skeptical of the book when a friend asked me to read it, and I remain a skeptic - trying to open the third eye alone, and seeing auras, etc., is counterproductive on the spiritual path. Really enjoy the practical nature of this. Anything that helps people become more sensitive is a plus these days GOOD! MEDITATION FOR THE AWAKENING OF THE THIRD EYE. This book is so interesting every that I collect it I start at the beginning :-)) I have been researching about the opening of the third eye and the natural DMT that we can release. This is the 4th consistent information of this technique that I have found and made more sense to me. I have been practicing the technique in this book and I haven't given up coffee and done declassified therapy on my pineal gland. I've also always been very intuitive and harpsichording, so I could have been born with it open already. Either way, I love the authors manual and background on the information given; I think it will make positive changes no matter what. thanks Amy for an awesome spiritual manual! © 1996-2014, Amazon.com, Inc. or its affiliates Third Eye Awakening: 3 Books in 1 - Discover and learn how to open your third eye Chakra - Third eye awakening + Chakra Healing + Chakra awakening chakras are those points in the body through which energy flows. Body light is the eye: therefore, if the thin eye is single, your whole body will be full of light.- Jesus from NazarethRecently a gentleman named Craig Lovrich of New Zealand shared his third-eyed experience with me: When I started reading his book Ascension, that night I slept. Just moments after closing my eyes to go to sleep, I had a wonderful experience ... like an explosion in the eyes of my mind. I had no idea what it was. It was as if the shiny white paint exploded all over/inside the eye of my mind. The experience only lasted a moment. However, it was awesome, and like nothing I've had before. It left me with a sense of peace and being cleaned up. At the time I had no idea what had happened. However, later in his book I read the information he provided about it. Since then, it has happened again. Craig's description is typical of what can happen when the third eye opens. This lucky experience is a sign of waking up to a higher consciousness. See through your third eyeWhat is your third eye? And how can you open it? Through the window of your eyes, you will see the changing landscape of your beautiful and miraculous world. You can delight in contemplating the glorious manifest creation around you – both the natural world and man-made objects. You perceive this magnificent world with your five senses: seeing, feeling, tasting, smelling and feeling. But there is a sixth sense. With this sixth highest sense perception, you can open the gateway to more subtle realms of existence. You can develop an inner eye and see an invisible world, consisting of multiple dimensions, alternative realities, subtle plans, light-filled spiritual worlds, and parallel universes of indescribable wonders. This eye of wisdom, knowledge, enlightenment and intuition is aptly called the third eye. The mechanism of sight, according to science, is a marriage between the object of perception, its two eyes, and its brain. The mechanism of inner sight (vision or intuition) is believed to use a third inner eye, sitting on the pineal gland. This gland, a bit of a mystery of modern allo medicine, is well known for Indian Ayurvedic medicine; chinese medicine; in Druidic, Judaic, Islamic, Taoist, Mayan, Tibetan, Aboriginal and other cultures; and in ancient Egypt, Sumeria, Assyria, Babylon, Greece, Rome and India this third eye is known as chakra ajna, Mesoamerica.In subtle plexon of energy at the center of its sitting on the pineal gland. It is the top viewing portal, where you can see what is not evident to your eyes. The ajna chakra is not in your physical body. If I had to dissect a corpse, I would find it anywhere. It is found in its subtle body. Throughout the ancient and modern world, this third eye sitting in the pineal gland has been called divine Eye, Eye of All Things, Eye of mind, Eye of the Soul, Inner Eye, Eye of Enlightenment, Eye of Wisdom, Eye of Horus, Third Eye, Eye of Providence, Eye of God, Sixth Chakra, Chakra Ajna, and Brow Chakra. In this book you will explore the third eye in depth. You will discover the functioning of your subtle body and its relationship with your physical body. By using the methods in this book, you will learn to awaken your third eye and develop supersensory perception by various traditional and non-traditional methods, both ancient and modern. Why develop your third eye? There are unsasy benefits to exploring your third eye. This eye of wisdom and intuition is literally your inner master. In India, the planet Jupiter, associated with the third eye, is called Guru, which can be translated as spiritual preceptor or master. Therefore, by waking up and developing your third eye, you are opening lines of communication between your ego and your superior self. What can this inner master do for you? In a word: miracles! When the eye of inner wisdom opens, a flow of divine orientation begins. When you learn to perceive this flow, allow it to, trust it, learn to test if it is real, and then follow the true inner guidance you receive, then miracles will begin to happen everywhere, in every part of your life. The third eye is the eye of enlightenment, which shines the light of wisdom on its way. It's the wayshower, the beacon that guides you to your true destiny: the house you've been longing for. It is the beacon of consciousness, which truth seekers everywhere long to achieve. Sitting in this treasure is his inner wisdom, the very essence and the source of his true Self. The third eye is where the truth lies, and where everything that is false dies and disappears. Nothing fake can live in the light of pure wisdom. The third eye is the headquarters of discernment and discrimination. There, he distinguishes between what is real and what is unreal. The truth shines in this inner glare, where you're wrapped in divine light, shining above all equally, the righteous and unfair, the rich and the poor, the healthy and the diseases, both men and women, in all religions, paths, social statistics and economic ranks. Here's what you would expect to open the miraculous inner eye of wisdom:* Greater confidence as you discover its true purpose.* Greater wisdom as you access the source of all wisdom.* Access to internal counselors who will guide you on your way.* The ability to make decisions effortlessly, with commitment, certainty and security.* Clarity of mind at all efforts.* Development of psychic and intuitive skills.* Spiritual development of Consciousness.* Direct communication with higher beings.* Greater inner peace, fulfillment, adiation and joy.* The ability to see through illusions to perceive reality and truth.* Spiritual gifts of subtle sensory perception, prophecy and direct voice.* Robust physical health, well-being, longevity and youth.
